Your effective approach to multiple project status tracking and reporting

937/239-7170

A software product which greatly reduces the time and effort required to manage, monitor and report status on multiple active projects undertaken by your organization, **cPCp ProcessTracker™** updates and verifies progress of an unlimited number of office or factory projects.

Created for use by businesses ranging from photo studios to assembly shops, **cPCp ProcessTracker™** is invaluable wherever a group of tasks is repeatedly processed and requires step-by-step updating and progress tracking. Process steps and durations are specified one time to set up each individual process, and a unique project is created which references a process and contains other project specific customer and project information. Security is assured by the optional password feature which limits access to the various functional levels according to user need.

- Individually serialized projects using pre-created processes
- Easy process and customer form-based setup for unlimited projects
- Option of conventional mouse or barcode scanning operation with provision for printing project routing sheet with bar codes
- Last completed step highlighted for quick reference
- Automatic calculation of Time Remaining on project
- Recall of any project status at any stage for viewing or printing
- Graphics screen for easy status viewing including a moving status line
- Archive database of all completed projects
- Fully integrated Help system
- Password protection option
- Extensive customizing available

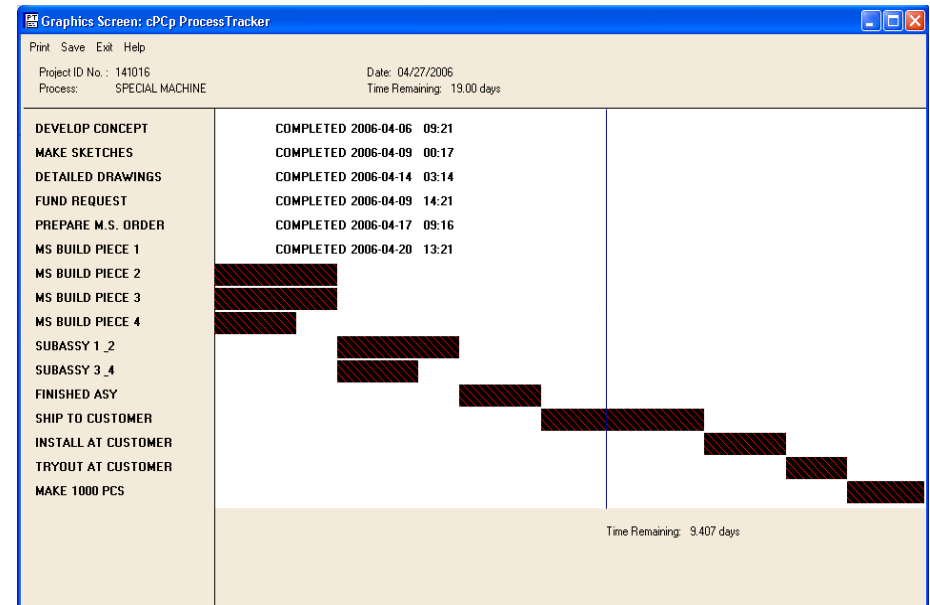

Additional features not listed here are also included. Request a complimentary copy of **cPCp ProcessTracker™** from info@custompcprogramming.com and begin realizing the benefits of convenient and effective program tracking.

The Main Screen of cPCp ProcessTracker displays project details and a list of process steps. The Project ID is 141016, created on 2006-06-27 07:17:30. The process is SPECIAL MACHINE, named Bill Nelsen, located at 111 Lakeshore, Cleveland, OH, 44122, with phone 216/221-1021 and fax 216/221-2222. The process steps are listed in a table with START and FINISH times. The last completed step is MS BUILD PIECE 4 on 2006-04-20 13:21. The time remaining is 19.00 days.
